

ELIZABETH STEIN

Washington, PA | (724) 812-2023 | purplegumdropz@gmail.com [linkedin.com/in/imkindageeky](https://www.linkedin.com/in/imkindageeky) | elizabethannstein.com | github.com/forbiddenlink

PROFESSIONAL SUMMARY

Full-stack engineer shipping production code at three orgs. B.S. in Information Technology, Software Development (Capella, 2026 — Summa Cum Laude, 3.98 GPA). Primary developer on CyberReady Clinic's Dynamics 365 / Power Platform assessment — v1.1.0.18 live in production. Concurrent Software Engineer at Rocket Park (Craft CMS agency, 10 client sites) and former Design Team Lead at Flo Labs (6-site ecosystem, 4-dev team). Won the Algolia Agent Studio Challenge (\$750) with TimeSlipSearch. Publish to npm; write MCP servers; build observability in Rust.

TECHNICAL EXPERTISE

Languages & Frameworks: TypeScript, JavaScript, React, Next.js 16, React 19, Node.js, Python, Java, Spring Boot, Rust, Go

Microsoft Power Platform: Dynamics 365, Dataverse, Power Apps Canvas, Power Automate, Azure AD / MSAL, m365 / pac CLIs

Frontend & Design: Tailwind CSS, Three.js, WebGL, GSAP, Craft CMS, Twig, Figma, Component Architecture, Accessibility (WCAG 2.1)

AI & Integration: Claude / Anthropic API, OpenAI GPT-4, MCP (Model Context Protocol), RAG pipelines, Algolia Agent Studio, Whisper, Hugging Face

Backend & Data: PostgreSQL, Supabase, Neon, SQLite, Redis, Drizzle, Prisma, Better Auth, Firebase, MongoDB

Infrastructure: Vercel, Railway, Docker, GitHub Actions, Playwright, Sentry, Langfuse, Inngest

Leadership & Process: Agile/Scrum, Technical Mentorship, Architecture Planning, Code Review, CI/CD

PROFESSIONAL EXPERIENCE

Primary Developer (1099 Contractor → Full-Time Accepted) | September 2025 – Present

CyberReady Clinic

- Primary developer on MSP Ready5 Assessment — Dynamics 365 / Power Platform / Dataverse — v1.1.0.18 live in production as of May 2026
- Shipped 12 implementation phases: Dataverse data model, Power Automate orchestration, Power Apps Canvas front-end, solution packaging for cross-environment promotion
- Built CRC Lead Gen Platform on Next.js 16 + React 19 + Drizzle + Neon Postgres + Better Auth + MSAL Azure AD on Vercel
- Integrated Power Automate callback flow signing handoff into Dataverse environment so CRM stays the source of truth

Software Engineer | September 2025 – Present

Rocket Park

- Execute core version upgrades, plugin updates, and infrastructure improvements across 10 client Craft CMS sites
- Built MCP (Model Context Protocol) server wrapper enabling AI assistants to query and interact with Craft CMS content directly
- Translate Figma designs into production-ready Craft templates using Twig, Tailwind CSS, and modular component architecture
- Standardized Craft project-config CLI workflow to make content-model changes traceable in version control

Design Team Lead & Software Engineer | September 2024 – January 2026

Flo Labs (formerly Flomad)

Led technical strategy and development for a portfolio of 6 production sites serving AI/robotics ventures, educational programs, and research initiatives. Managed cross-functional team of 3–4 developers, WordPress specialists, and SEO interns.

- Architected and deployed complete redesign of Flo Labs web ecosystem (flobabs.international, flobabsrd.com, CAIPO.ai, FloStudios.ai, MoodChanger.ai, RoboCollective.ai) using React/Next.js with unified design system
- Led enterprise overhaul of AI Travel Planner from proof-of-concept to production platform, refactoring 100+ files and implementing scalable architecture
- Designed and implemented 22+ specialized AI prompt systems and 18+ AI functions for multi-modal travel planning
- Built testing infrastructure: 270 frontend tests and 12 backend tests, establishing CI/CD best practices
- Implemented Strapi CMS and Railway into production websites
- Mentored 3+ developers and designers, conducting code reviews and providing technical guidance

Software Engineer | 2023 – 2024

Coulson Aviation

- Contributed to Coulson One, an enterprise TypeScript/React aviation resource management platform (64,806 files)
- Shipped features to production used by aviation operations teams
- Maintained strict type safety across the monorepo

Software Engineer | August 2024 – November 2024

Sirius

- Planned, designed, and helped implement scheduling, payroll, and check-in features for Wisdom workforce mobile app (React Native)
- Improved time-tracking reliability and reduced user-reported issues through systematic testing and debugging

EDUCATION

Bachelor of Science in Information Technology | Conferred March 2026 Specialization: Software Development | Concentration: Web Development Capella University | GPA: 3.98/4.0 **Honors:** Summa Cum Laude · University Honors Pathway · Dean's List (All Quarters)

SELECTED PROJECTS

TimeSlipSearch — Winner, Algolia Agent Studio Challenge (\$750 + DEV++ membership, March 2026). Conversational AI agent indexing 420,000+ pop-culture records from 1958–2020. Featured by DEV Community.

Specter — Published npm CLI (@purplegumdropz/specter). 65 CLI commands + 14 MCP tools for Claude Desktop. Code archaeology, bus factor analysis, dead code detection, complexity hotspots, and impact analysis — narrated with AI-powered context.

Chronicle — Local-first AI agent observability platform in Rust (Axum + SQLite + React 19). Semantic-caching OpenAI proxy that cuts repeat-call costs. MCP integration enables natural-language trace queries. 29 tests passing.

elizabethannstein.com — Interactive 3D galaxy portfolio showcasing 100+ projects across 6 galaxies. Built with Next.js 16, Three.js, GSAP, Playwright e2e, Vercel.

Rocket Vitals — Scan-first website QA tool that crawls pages and delivers prioritized reports across 200+ checks (accessibility, performance, SEO, security).

Repro-in-a-Box — Production-grade automated bug detection with 10 detectors and 215+ tests. HAR recording, reproducibility validation, Claude Desktop MCP integration.

MCP Wrapper for Craft CMS — Built at Rocket Park. Dynamically generates AI-queryable tools from Craft CMS GraphQL schemas so AI assistants can read and interact with CMS content in real time.

ADDITIONAL EXPERIENCE

Bartender | Hugo's Restaurant | 2013 – Present Manage high-volume service environment requiring rapid prioritization, stakeholder management, and composure under pressure.
